1	the record and I just wanted to put on the
2	record my name is John DeLeon, and I'm with the
3	Sweetwater County Attorney's Office representing
4	Detective Sheaman.
5	MR. AYALA: Thank you.
6	BY MR. AYALA:
7	Q. Sir, who are you currently employed
8	by?
9	A. Sweetwater County Sheriff's Office.
10	Q. And how long have you been employed
11	by the Sheriff's Office?
12	A. I've been with the Sheriff's Office
13	just shy of 16 years. And I've been in law
14	enforcement just shy of 19.
15	Q. Okay. In what capacity are you
16	employed by the Sheriff's Office?
17	A. At this point I'm the detective
18	sergeant.
19	Q. And how long have you had that role?
20	A. Since April of this year.
21	Q. Congratulations.
22	A. Thank you.
23	Q. Prior to that role, what other role
24	or title did you hold for Sheriff's Office?
25	A. I was a patrol corporal starting in

Veritext Legal Solutions

Page 8 1 2011, and then I moved into detectives at that 2 point. So I've been in investigation since 2011. 3 0. Talk to me, if you could, the duties and responsibilities -- really, your role in these 4 5 varying capacities from patrol corporal to detective sergeant. 6 7 A . So I run a crew of anywhere from five to six. So basically I supervise five or six 8 9 deputies. 10 Currently in investigations, I 11 supervise four. And we conduct followup 12 investigations from initial reports. We handle 13 conflicts, investigations, death investigations, 14 you know, anything of that magnitude. 15 As you, I'm sure, know, you are here Q. 16 today to talk about your involvement in an 17 investigation that took place back in February of 18 2022 relating to a fire at the Wadsworth residence. 19 You know that, right? 20 A . Yes. 21 Okay. Part of your job duties and 0. 22 the role for the Sheriff's Office include not just 2.3 investigation deaths and crimes but also 24 investigating fires? 25 A . Yes.

Page 9 1 Q. Does that include origin and cause? 2 A . Yes. 3 And that's not all investigators -- I myself and, I believe, one other deputy with the 4 5 Sheriff's Office are certified in origin and cause investigations. 6 7 Ο. Okay. Before getting into some of 8 the more specifics of your certifications, your education, your training, did you have -- did you 10 bring anything with you today, any types of 11 documents, photographs, anything? 12 Α. I didn't. Just my report. 13 Q. Okay. Did you -- other than your 14 counsel who's here with you today, did you speak 15 with any of the attorneys involved in this case? 16 Just with Mr. DeLeon -- that was No. 17 it -- just before this deposition. 18 All right. Have you spoken with any Q. 19 other persons involved with this incident in 20 preparation of this deposition; that could include deputies, firefighters, et cetera? 21 2.2 Α. I talked to Bill Robinson who's the 23 chief of Green River Fire. He actually called me, 24 I believe, a week, week and a half ago just asking 25 me about this depo. He had questions on how these

Page 18 time I've brought them into a fire sitting, whether 1 2 it's residential or commercial, I try to help them 3 kind of understand what my job is as an origin and cause investigator; that kind of thing. 4 5 And when you're explaining -- the 6 reason I ask that is because you come across as 7 this person to me -- maybe I'm totally off. But. 8 Are you the type of person with those 9 that are working alongside you -- you were talking 10 to them, talking them through your processes and 11 trying to help them understand the process? 12 Α. Yes, very much so. 13 Ο. And so that includes if there's 14 others -- is there's deputies and other Sheriff's 15 Office personnel that are assisting you on 16 investigation, you are talking them through your 17 processes so that they can gain an understanding of 18 what you're doing, how you are doing it and why you 19 are doing it? 20 Α. Correct. 21 Do you hold any other state 22 certifications that relate to either fire 23 suppression or fire prevention? 24 No. That's it. Just origin and A . 25 cause.

Page 19 1 Q. Do you hold any state certifications 2 relating to law enforcement? 3 A . Yes. Okay. And what certifications do you 4 5 hold currently? Just my peace officer certification. A. 6 7 I've had that since 2005. 8 You say peace officer? Q. 9 Α. Yes. 10 Q. And what is that? That's from the law enforcement 11 Α. 12 academy. So every law enforcement officer in the 13 state of Wyoming has to go through that academy. 14 And it's in Douglas, Wyoming. And it's about a 15 three to four-month class. 16 Is that also a certification that 17 also requires recertifying? 18 Α. Yes. 19 And how often? Q. 20 You have to have a certain amount of Α. 21 And it changes constantly. So they require 2.2 a certain amount of hours per year to maintain a 23 certification, whether it be training or on-the-job 24 experience; that kind of thing. 25 What kind of training do they offer Q.

Page 36 1 Α. Okay. But I recall on there -- it looks 2 Q. 3 like you arrived at the residence at approximately 1300, so 1 p.m. 4 5 Does that jibe with your recollection? 6 7 A. Yes. I believe I had lunch before. 8 I think I got that call at 11:00 something or just 9 shy of noon. I remember grabbing lunch and 10 responded to it after that. 11 MR. LaFLAMME: Mark it as 16. 12 Was that the report? 13 MR. AYALA: Yeah. Let's go ahead and 14 do that. 15 We'll mark and identify as Exhibit 16 16 Detective Sheaman's report. 17 (Whereupon, Exhibit 16 was marked for identification.) 18 19 MR. LaFLAMME: Would that be the 20 document listed as Public Investigative Report 21 from --2.2 MR. AYALA: That's right. 23 MR. LaFLAMME: -- County Sheriff? 24 MR. AYALA: Yes. 25 MR. LaFLAMME: Okay. One moment.

Veritext Legal Solutions

Page 117 1 Did I read that correctly? 2 Α. Yes. And we talked earlier about whether 3 Ο. you ever concluded that a hoverboard was the cause 4 5 of the fire or lithium batteries were a cause of the fire. 6 7 Irrespective of that, you've become 8 aware over the years just by the very nature and virtue of what you do, that hoverboards, in fact, 10 can cause fires? 11 Α. Yes. 12 And you've heard of those stories --Ο. 13 even if you haven't investigated one specifically, 14 you've heard of those stories of hoverboards 15 catching fire? 16 Α. 17 You spoke with Chief Robinson and 18 Chief Urgman. And you documented, you both agree 19 that the fire started in the bedroom near where the 20 hoverboard was found. 21 A . Yes. In that conversation with Chief 2.2 Q. 23 Robinson and Chief Urgman, did you gain an 24 understanding from them that they concluded the 25 hoverboard contributed or caused the fire?

Page 164 describe the locations of the window, the bed, the 1 2 closet, the outlet, the door. 3 Was your description of the locations of those items in the bedroom consistent with the 4 5 information provided to you by Mr. Wadsworth? Yes, it was. 6 Α. 7 Ο. So you concluded those interviews. 8 You showed Matt some of the photographs, those were 9 the photographs that you had taken? 10 Α. Yes. 11 And that assisted you in Ο. 12 understanding where those items that he described were located in the house before the fire? 13 14 Α. Yes. 15 Ο. And then Matthew and the children 16 left the building. That concluded your interview 17 of all of that, correct? 18 Α. Right. 19 Again, the audio and video recordings 20 from the interviews were download into the 21 electronic evidence by you, and the case was closed 22 pending further information, correct? 23 Α. Right. 24 Following March 4th, 2022, have you 25 receive or been provided with any additional

Page 165

information relating to this fire incident?

A. No.

- Q. Aside from -- putting this aside for now, but aside from those hypotheticals that I asked you about, a shed and smoking and a space heater and arcing; and in all of those things, you've not been provided with any additional information relating to potential origin or cause of this fire.
 - A. No, I have not.
- Q. And even with all of those hypotheticals and the information provided in those hypotheticals, none of that changes your ultimate conclusions that you've reached and pronounced today.
 - A. No.
- MR. LaFLAMME: Object to the form.
- 18 BY MR. AYALA:
 - Q. By the way, and we've referred to it and you've described it a little bit earlier today, did you find any arcing at all?
 - A. No, I don't believe there was any, not that I noticed.
- Q. Okay. But even still, as you described earlier, any evidence of arcing, whether

Page 203 1 Α. Yes. And you understand your NFPA 921 2 Q. describes the scientific method? 3 Α. 4 Yes. 5 And the scientific method requires Ο. you to assess all items, correct? 6 7 Α. Correct. Okay. And I know that you did your 8 9 report, which has been marked as Exhibit 16, and this report was completed. The last supplemental 10 11 was, I believe, March, March 4th of 2022, correct? 12 A. Correct. 13 0. And any additional evidence that was 14 discovered on the private side, you're not aware of 15 that, right? 16 A. Correct. 17 And you would agree that in order to 18 complete a full and thorough origin and cause 19 investigation under an NFPA 921, you would need to 20 consider all the evidence that's been uncovered, 21 correct? 22 A . Yes. 23 MR. AYALA: Object to the form. 24 BY MR. LaFLAMME: 25 Did you take any video during your Q.

Veritext Legal Solutions

Page 252

- A. That's something I would -- I would definitely be all ears to talk to someone if someone came to me. Again, I'm always bouncing ideas off someone. If someone came to me and said, hey, this is what we think, I would definitely look into that; I would definitely consider, you know, hey, let's -- let's take a second look at it. I've done that with criminal investigations; I have no problem with that. But again, it doesn't change my opinion on where I believe the fire started.
- Q. But you understand under NFPA 921, that if additional evidence comes to light, you need to consider that evidence, correct?
 - A. Correct.
 - Q. Okay.

25

- A. And I wasn't -- I didn't hear of any other, you know, any other calls, any other evidence, or anything like that.
- Q. Okay. I understood that you weren't part of the private investigation --
 - A. Sure.
- Q. -- and you haven't been privy of what those results were, but if there was arcing that was found in that shed, you would agree with me that under 921 you would want to reevaluate your

Page 254 1 house, this is what we found; something that might 2 spark an interest to look back into that, I would 3 be all over that, I would be very much for that. But again, I still hold that opinion 4 5 of -- based off what I found, the firefighters found, in discussing with them what they determined 6 7 what was the origin of cause, and it matched mine, 8 which is what I had said earlier. BY MR. LaFLAMME: 10 And your opinion is based on the 11 information you learned up through March 4th of 12 2022. 13 A . Yes. 14 Okay. And even before then, you were 15 told about the smoking shed by Mr. Wadsworth, 16 correct? 17 Yes, yes. Α. 18 And that just wasn't anything that 19 you've followed up on at that time. 20 Α. Correct. 21 The fact that there -- there were 2.2 statements by the children about the fire starting 23 outside in the body camera footage cam, if there 24 was arcing that was found at the shed, that would

certainly cause you to look at that area as a

25

Page 255 1 potential area of origin. 2 MR. AYALA: Form. 3 I would -- in that case, obviously Α. any additional information I got on something like 4 5 that I would look into it for sure. Okay. And with that type of 6 7 additional information, if that is the result of 8 the private investigation, Chief Robison indicated 9 yesterday that he would have -- as he was sitting 10 there yesterday, based, if that information was 11 true, he would have to put under NFPA 921 the 12 original as undetermined and his investigation as 13 ongoing. 14 Would that be the same qualification 15 you would use? 16 A . Yes. 17 An as part of your investigation, you 18 went out to Walmart to look at the type of 19 hoverboard, correct? 20 Α. Yes. 21 Ο. Did you ever purchase an exempt -- an 22 exemplar? 23 No, I did not. Α. 24 Q. Okay. I wasn't sure if you had. 25 Α. Nope, I didn't.
